

## Information Sheet - EcoLite®

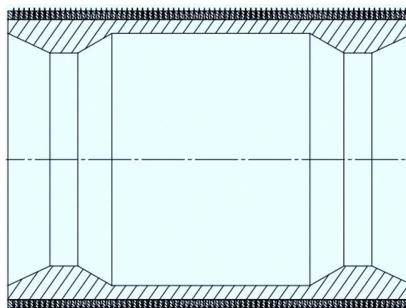

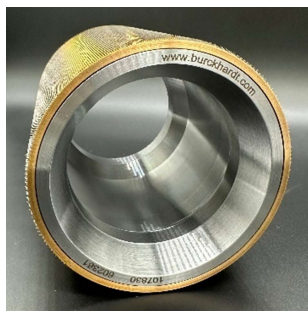

---

### Burckhardt EcoLite® perforating tools for Woven Sacks

The green advantage from the OEM manufacturer

#### EcoLite® Specifications

- Patented light core construction: Weight reduction of 1kg/25% on perforating ring. It is achieved by optimizing the shape of the steel core using the patented EcoLite® design
- All other product characteristics remain identical
- The EcoLite® rings are seamlessly compatible with all machines and can be combined with previous specification rings

#### EcoLite® Advantages

- 25% lower energy consumption
- Reduced transportation cost
- Sustainability - generates less CO2
- Easier handling on mounting und dismantling

**OEM equipment for maximum performance and longest life-time**
